Dear Sir,

**RE: ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR ISENI EARLY HOOKUP (EHU) TO DOMESTIC GAS PROJECT**

We acknowledge the receipt of your letter referenced UPO/G/NG/SPDC-HSSE-06-2017-0044L dated June 23, 2017 transmitting the updated EIA report for the proposed Iseni Early Hookup to Domestic Gas Project, which came as a result of the joint review workshop on the aforementioned project on May 31 – June 01, 2017.

2. We have reviewed the updated EIA report submitted and wish to state that the report has met our requirement for your proposed project. Furthermore, we wish to state that we agree with the findings from the study based on experimental findings documented in the submission which demonstrates that your operations will not cause significant changes to the recipient environment as adequate mitigation measures were proffered for the identified impacts.

3. However, we are unable to convey our approval of the draft EIA at this time as the Detailed Engineering Design (DED) of the project is yet to be frozen. Please note that our final EIA approval shall be issued when the detailed engineering design is frozen in line with the provisions of Part VIII A Subsection 3.1.3 (d) of the Environmental Guidelines and Standards for the Petroleum Industry in Nigeria (EGASPIN).

4. Should you require further clarification do not hesitate to contact this Office.

Yours faithfully,

**Balogun A. A.**

for: Director, Petroleum Resources
